Lab 19, Hayes

We will do this Lab next week (May 2 – 5)

Homework #4, due May 2

1. (a) Consider the “Decoder Test” program in Lab 19, Fig. L19.5. Write out the entire contents of your RAM required to run this program (. *i.e.* including the locations starting at address \$0000).
(b) Make the modifications discussed at the top of page 475 for changing to W and L sized instructions.
